

PHYSICAL PROPERTIES	
Coating	High Grade Flame Resistant Silicone Rubber
Weight, oz/sq yd, nominal	96
Thickness, inches, nominal	0.125
Flame Resistance	Excellent
Oil and Hydrocarbon Resistance	MIL-C-20696, sect. 4.2.4
Abrasion Resistance	Excellent (silicone side)
Temperature Rating:	
Coating:	-65°F to 500°F continuous; transient exposure to 600°F
Base Fabric:	1000°F/540°C continuous
Base Fabric can be certified to:	MIL-Y-1140 MIL-I-24244
Finished Product can be certified to:	MIL-I-24244 ASTM E84.84A ASTM E162
